

COMP 354: Diary - Iteration 2

Hrachya Hakobyan

ID: 40041555

March 19, 2018

March 1, pm 2018

Worked on existing test suits. Refactored RemoteAccountServiceTest.

March 4, 12:30-4:00 pm 2018

Meeting with coders (I, Anne, Keith and Abed). Overview of code, task assigning and coding. Started to implement tests.

March 6, 1:30-2:00 pm 2018

Meeting with Anne. Minor changes to the architecture. Helped with test cases for her task.

March 7, 12:30-4:00 pm 2018

Created Github issues for each task assigned to coders. Briefly went over the existing code.

March 11, pm 2018

Removed unused API calls from UserService, refactored validators, added key-listening functionality to controllers, minor changes to tests.

March 13, 2:30-3:00 pm 2018

Meeting with Anne and Keith. Helped Keith fix the problems with his fxml and to update the database.

March 14, 7:15-9:00 pm 2018

Meeting during the lab. Went over the remaining coding tasks. Helped Keith to finalize the update user controller.

March 18, 2018

Meeting with Anne.

Restructured the table view controller, display model and table view.

Updated the architectural diagram.

Minor naming changes in the code.

Added class descriptions for a few view controllers.
