

COMP 354: Diary

Andrew Smith

ID: 40034936

February 11, 2018

Iteration 1

Jan. 14 - 21

- Project / iteration 1 initialization
- First team meeting
 - Role assignments
 - Discussed which technologies to use
 - Created use cases for iteration 1

Jan. 21 - 28

- Created separate project to learn javafx
 - Created User Account view / controller (was not included with this iteration)
 - Created Transaction List view / controller

Jan. 28 - Feb. 3

- Created additional views and controllers:
 - Login
 - Sign Up

- Account info
- Update Transaction List (was later refactored and finalized by Marc)

Feb. 3 - Feb. 10

- Integrated views / controllers into the team project
- Created a StageManager class to handle scene transitions
 - Later refactored and moved to the MyMoneyApplication class
- Moved and format Keith's Mac OS setup guide to the project readme
