31 January 2018

Iteration 1

Role: Organizer

Week 1:

- No work has officially started due to no laboratories being held during the first week of classes.

Week 2

Team Meeting:

- First team meeting
- Discuss the project
- Split the team in different groups and roles
- Discuss the technologies to be used in the project

Tasks performed

- No tasks performed yet

Week 3

In week 3, we mainly discussed our use cases and domain models during the lab.

Team Meeting:

- Work on the domain model as a team
- Work on the use case diagrams as a team
- Present the code foundations to the other coders and other interested members of the team

Tasks performed

- Started using sharelatex environment and learning how to use it

- Learned how to navigate GitHub and use Git in general

- Kept track of Slack posts between members to stay up to date on current tasks.

Week 4

Team Meeting

- Discuss,as a group, with the TA the progress on the project

Tutorial

- Assigned to start writing functional and non functional requirements in requirement.tex document

Week 5

Tasks performed

- Started writing functional and non functional requirements in requirement.tex document

- Write diary for iteration 1
